25X1

1. On 12 April 1952, [REDACTED] there was no change in the status of locomotive Column [REDACTED] in Ducherow, while the equipment of Locomotive Column [REDACTED] in Ruednitz had increased by at least 10 to 12 locomotives as compared to the last reported status of 22 March 1952. \* and \*\*

25X1

2. On 21 April 1952, [REDACTED] 22 locomotives with Locomotive Column [REDACTED] in Ruednitz. Maintenance work was being done on some of the locomotives. \*\*

25X1

3. On 12 April 1952, [REDACTED] some of the locomotives kept as a reserve at Luebbenau had been exchanged but that their number had remained constant. All the locomotives were of type 43. \*\*\*

25X1

\* [REDACTED] Comment. This observation confirms the locomotive column Reserve in Ducherow until 12 April 1952. [REDACTED] a total of 20 locomotives were kept there.

25X1

\*\* [REDACTED] Comment. The locomotives kept as a reserve in Ruednitz were overhauled at the Berlin-Frankow locomotive repair shop. It appears that all of them have been returned to Ruednitz.

25X1

\*\*\* [REDACTED] Comment. The previous report did not make it clear to which locomotive column this equipment was assigned. If the information that these locomotives were of type 43 is correct, they probably are not assigned to any of the existing locomotive columns because these are equipped exclusively with 01, 00, and 52 type locomotives. [REDACTED]. The locomotives concerned are therefore

25X1

be a reserve of the Directorate General, Railroads, Berlin, or of the Cottbus regional railroad headquarters. The type 43 locomotive is a freight locomotive with six axles, five of them coupled, and an axle pressure of 20 tons.
